FOUR MAPLES FARM

J. A. Hullibarger, Prop.

Bowling Green, Ohio.

Located 3 mi. West of Bowling Green on Rt. 6.

Retail Price List for 1938-9.

First of all we wish to thank our many friends for their very liberal support, and for their many letters of appreciation.

New Varieties

Besides our own "BEAUTIFUL OHIO" we are offering some other outstanding varities recently introduced, and are discarding many older varities in favor of better ones in the same colors. Among the newer ones are Shirley Temple, New Era, Rewi Fallu, Red Diablo, Amanda, Chief Red Bird, etc.

Beautiful Ohio is rapidly forging to the front, having won many blue ribbons in different parts of the country. Its color is magnificent, different and difficult to describe. It is generally classed as a rose pink. It is neither lavender, rose, nor pink; but is a mixture of all of these. Its substance is excellent, growth always straight and strong, and the bulbs practically free from disease. We quote here an extract from a letter from a grower in Wisconsin: "I have had some wonderful spikes of Beautiful Ohio in my own garden-- much larger and finer color than any ever seen.***** Most lower florets would measure 5½" to 6" easily. Fine large exhibition spikes and 6 open. Beautiful Ohio certainly does measure up O.K. and has Some Color."

Please order early to avoid disappointment. Chances are that we will soon be sold out of some varieties. You may often help us in filling your order if you say "You may substitute in size or the same color if necessary". This may save delay by making correspondence unnecessary.

We guarantee all our stock to be State Inspected, true to name, and free from injurious insects or diseases; and will make good any mistakes we may make. (No one is perfect. We all make mistakes.)

Our bulbs grown this year are the finest crop we have grown in our eighteen years of experience. They were grown in soil that had lain in pasture for thirty-four years; and our sand soil here is said to be one of the finest glad soils in the world. We have many bulbs No. 1 and No. 2 in size grown from bulblets, and they are all "Full of Pep".

The sizes are designated as "L" for large, "M" for medium, "S" for small, and "B" for bulblets. L is 1¼ inches and up in diameter. M is ¾ to 1¼ inches and S ¼ to ¾ inches. When ordering please designate size. "L" bulbs will produce show spikes. "M" will produce average size spikes. Some "S" bulbs will bloom.

This year we are establishing a new departure in our method of listing varieties and also giving only a short color description; thereby conserving space and passing the saving on to you.

We do not offer cash discounts but always give liberal overcount and extras. This will amount to 5% or more. Pleasing you will be our greatest pleasure.

You may order 5 bulbs at the 10 rate, but we prefer that no item for less than 10¢ be ordered, and that your order should be for $1.00 or more as orders for less than $1.00 are packed at a loss. However, we fill all orders even though small.

We pay transportation charges on all offers in this list, to any point in the United States.

Cash remittance should accompany the order; or you may remit 25% cash then send balance just before time of shipment or C.O.D. as you prefer. Cash remittance costs you less.

We usually ship immediately upon receipt of order. Orders held for spring delivery will usually be shipped about March 15.

To further conserve space we designate quantity and prices thus: 2-.10 means 2 for 10 cents, etc.

All offers are made subject to prior sale.

Please read the above carefully before ordering and keep this list on file for future use.

VARIETY	DESCRIPTION	PER	L.	M.	S.	PER	BULBLETS

Wholesale list to commercial growers on application.

This list should have been out six weeks earlier, but we were unavoidably delayed, due to the long continued and serious illness of my dear wife, companion and co-partner, who passed to the Great Beyond Nov. 19th, 1938. We shall miss her wonderful help.
